COMPETITIVE LOCAL CARRIER TARIFF

Tariff Format

This tariff is divided into the following major sections:

General

Section 1: Rate Schedules

Section 2: Rules

Section 3: Promotions

Section 4: Universal Lifeline Telephone Service

Section 5: Individual Case Basis (ICB) Arrangements

Section 6: Standard Forms

- A. Sheet Numbering** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the CPUC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc., the CPUC follow in their tariff approval process, the most current sheet number on file with the CPUC is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** - There are seven levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.1.A.
 - 2.1.1.A.1
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1)
- D. Check Sheets** - When a tariff filing is made with the CPUC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision.

(C) Direct Inward Dial (DID) Service

DID Service allows a PBX user to have incoming calls reach a specific end users or departments by bypassing the assistance of an attendant. A DID trunk passes the called numbers last two or four digits to a PBX which, through translations of the Customer's PBX, connects the calls to a specific station called.

The monthly recurring rate charge will include the DID trunk charge, a loop terminal interface charge, End User Common Line (EUCL) and DID number block charges. An analog DID Trunk provides a Customer with a single, analog, voice-grade telephonic communications channel which can be used to receive one call at a time.

Additional charges apply for the assignment of DID Station numbers. See Schedule 2.5.

(D) Monthly Recurring Charges for Lines, Trunks, DID

Individual Line Measured Rate Business (below) includes the following USOCs:

- 1MB - Customer has more than one line (Multiline USOC).
- 1ML - Without a telephone, terminates on complex jack (Multiline USOC).

- 1MS – Customer has only one line (Single Line USOC)

(B) Cancellation of Application for Service (cont'd)

Where, prior to cancellation by the Customer, the Company incurs any expenses in installing the service or in preparing to install the service that it otherwise would not have incurred, a charge equal to the costs the Company incurred, less net salvage, shall apply, but in no case shall this charge exceed the sum of the charges for the minimum period of services orders, including installation charges, and all charges others levy against the Company that would have been chargeable to the Customer had service begun (all discounted to present value at six percent).

Where the Company incurs any expense in connection with special construction, or where special arrangements of facilities or equipment have begun, before the Company receives a cancellation notice, a charge equal to the costs incurred, less net salvage, applies. In such cases, the charge will be based on such elements as the cost of the equipment, facilities, and material, the cost of installation, engineering, labor, and supervision, general and administrative expense, other disbursements, depreciation, maintenance, taxes, provision for return on investment, and any other costs associated with the special construction or arrangements.

(C) Cancellation of Service

The Customer may have service discontinued upon verbal or written notice to the Company. The Company shall hold the Customer responsible for payment of all bills for service furnished until the cancellation date specified by the Customer or until the date that the written cancellation notice is received, whichever is later. A termination liability charge applies to early cancellation of a term agreement.

No. 3 Application for Service (cont'd)

(D) At the expiration of the initial term specified in each Service Order, or in any extension thereof, service shall continue on a month to month basis at the then current rates unless terminated by either party. Any termination shall not relieve the Customer of his or her obligation to pay any charges incurred under the Service Order and this tariff prior to termination. The rights and obligations which, by their nature, extend beyond the termination of the terms of the Service Order shall survive such termination.

(E) Termination Liability

Unless otherwise specified in individually negotiated contracts, the termination liability for services purchased under a Term Agreement will be equal to the less of either:

1. 20% of the balance of the total billing payable during the life of the term, or
2. the difference between the monthly rate for the selected term plan and the monthly rates for the longest term plan that Customer could have satisfied prior to early discontinuance of service.

(F) Initiation of Service

Within 10 days of initiating service, the Company shall state in writing for all new Customers all material terms and conditions that could affect what the Customer pays for telecommunications services provided by the Company.

Potential Customers who are denied service for failure to establish credit or pay deposit as described in this tariff must be given the reason for the denial in writing within 10 days of service denial.

The Company may not deny service for failure to provide a social security number. Where a Customer chooses not to provide a social security number, the Company may request other identification information sufficient to enable the Company to verify the Customer's identity and run a credit check. No. 9 Disputed Bill Procedure

In the case of a dispute between a Customer and the Company as to the correct amount of a bill rendered by the Company for service furnished to the Customer, which cannot be adjusted with mutual satisfaction, the Customer may make the following arrangement:

- (A) The Customer may make a written request, and the Company shall comply with the request, for an investigation and review of the disputed amount. The Company will investigate that charge(s) the Customer has informed the Company are in question, and shall reach a determination and communicate it to the subscriber within 30 days. During the time the investigation is pending, no late charges or penalties may be collected, the charge may not be sent to collection, and no adverse credit report may be made based on non-payment of the charge. If the subscriber prevails, no late charge or penalty will be imposed on the disputed amount. (N)
- (B) The undisputed portion of the bill and subsequent bills, other than the disputed amount, must be paid by the "Due By Date" (no sooner than 25 days of the date of presentation) shown on the bill. If the undisputed portion of the bill and subsequent bills become delinquent as described in Rule Nos. 7 and 9 of the Consumer Protection Regulations set forth in D.04-05-057, the service may be subject to disconnection if the Company has notified the Customer by written notice of such delinquency and impending termination. (T)
- (C) If there is still disagreement about the disputed amount after an investigation and review by a manager of the Company, the Customer may appeal to the Consumer Affairs Branch ("CAB") of the CPUC for an investigation and decision. To avoid disconnection of service, the Customer must submit the claim and, if the bill has not been paid, deposit the amount in dispute with CAB within 7 calendar days after the date on which the Company notifies the Customer that the investigation and review have been completed and that such deposit must be made or service will be disconnected. However, the service will not be disconnected prior to the "Due By Date" shown on the bill. The Company may not disconnect the Customer's service for nonpayment as long as the Customer complies with the conditions provided in (B) and (C). (T)

No. 12 Continuity of Service

(A) Allowances for Interruptions in Service

Credit allowance for interruptions of service which are not due to the Company's testing or adjusting, to the negligence of the Customer, or to the failure of channels, equipment or communications system provided by Customer, are subject to the general liability provisions set forth in Rule 18, herein. It shall be the obligation of the Customer to notify the Company of any interruptions in service. Before giving such notice, Customer shall ascertain that the trouble is not being caused by any action or omission of Customer, not within his control, or is not in wiring or equipment connected to the terminal of Company.

(B) Credit for Interruptions

1. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this tariff. An interruption period begins when the Customer reports a service, facility or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility or circuit is operative. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.
2. For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

No. 15 Measurement of Service

When charges for calls are mileage sensitive, airline mileage is computed as described below.

Calls are measured and rounded to the higher full minute from the servicing wire center of the Customer's originating location to the serving wire center of the destination of the call, regardless of Company routing. The distance between the serving wire center origination point and that of the destination point is calculated by using the "V" and "H" coordinates as defined by Bell Communications Research (BellCore) and NECA Tariff FCC No. 4 in the following manner:

Step 1 Obtain the "V" and "H" coordinates for the originating and terminating wire centers.

Step 2 Obtain the difference between the "V" coordinates of each of the serving wire centers. Obtain the difference between the "H" coordinates.

Step 3 Square the differences obtained in Step 2.

Step 4 Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 Divide the sum of the squares obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results.

Step 6 Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the airline mileage of the call.

No. 30 Legal Requirements for Refusal or Discontinuance of Service

California Public Utilities Commission's decision No. 91188 in Case No. 4930, requires that each communications utility operating under the jurisdiction of the CPUC include the provisions of the rule set forth in Appendix B of that Decision as a part of the rules in the utility's tariff schedules. Accordingly, Appendix B of Decision No. 91188, Case No. 4930, is quoted herein:

"Appendix B"

1. Any communications utility operating under the jurisdiction of this Commission shall refuse service to a new applicant and shall disconnect existing service to a Customer upon receipt from any authorized official of a law enforcement agency of a writing, signed by a magistrate, as defined by Penal Code Sections 807 and 808, finding that probable cause exists to believe that the use made or to be made of the service is prohibited by law, or that the service is being or is to be used as an instrumentality, directly or indirectly, to violate or to assist in the violation of the law. Included in the magistrate's writing shall be a finding that there is probable cause to believe not only that the subject telephone facilities have been or are to be used in the commission or facilitation of illegal acts, but that the character of such acts is such that, absent immediate and summary action in the premises, significant dangers to public health, safety, or welfare will result.
2. Any person aggrieved by any action taken or threatened to be taken pursuant to this rule shall have the right to file a complaint with the Commission and may include therein a request of interim relief. The Commission shall schedule a public hearing on the complaint to be held within 20 calendar days of the filing of the complaint. The remedy provided by this rule shall be exclusive. No other action at law or in equity shall accrue against any communications utility because of, or as a result of, any matter or thing done or threatened to be done pursuant to the provisions of this rule.

No. 33 Demarcation Points

(A) Responsibilities

The Company will provide facilities, equipment, and service to its local loop demarcation point. The Company is responsible for the provisioning and maintenance of its facilities, equipment, and services to the local loop demarcation point, including those located at that point.
